

Product Profile

Emulsion Rib Bolter

General Specifications

Working Pressure	16~31.5Mpa
Torque rate	50N.m
Speed rate	400r/min
Maximum Flow	35L/min
Applicable medium	Water, oil
Diameter of Bore	25~45mm
Power Medium	3~5% emulsion

The Emulsion Rib Bolter is simple and easy to install and use without using electricity and comprehensive protection devices for electrical appliances, reducing the complexity of the equipment and eliminates potential safety risks. The drilling speed can be adjusted steplessly for different hardness drilling materials, which are characterised by large torque, light weight, fast drilling speed, safe usage and user-friendly operation.

Product Profile

RUS Rib Bolter

Rus Rib Bolter RRB-8012.8S

The Rib Bolter is pneumatic hand-held drilling bolter. It is safety explosion-proof, large torque, high speed, light weight, small size, high efficiency, simple structure, convenient maintenance, etc.,

Suitable for detecting geological structure coal seams, exploration and release water, drainage tiles, water injection, coal discharge pressure, drilling through roadway from the front hole, roadway anchor support hole and other special purposes. Therefore, the rig is a very necessary emergency equipment for coal mine safety production.

SPECIFICATIONS

Air pressure(MPa)	58	72	91
Torque Rate(N.m)	60	80	85
Rotate speed(r/min)	315	335	340
Max. Output power(kW)	2	2.8	3
Max. load torque(N.m)	95	115	130
Power starting torque(N.m)	105	125	135
Dynamic stall torque(N.m)	110	130	140
Air consumption(m ³ /min)	3	3.5	4
No-load speed (r/min)	800	950	1000
Machine weight	12kg		
Water pressure	100-175psi		
Water flow	20 L/min		
Air hose size	25mm		
Drill chuck	25mmSQ		
Housing material	stainless steel
